

A True North Thank You!

The Mackenzie Aboriginal Corporation

extends a hearty thank you to the governments of the Northwest Territories and Canada for the \$8,000,000 investment in the first step towards a Mackenzie Highway from Wrigley to Inuvik and Tuktoyaktuk.

The Highway is a dream as long and winding as the road itself that began almost 50 years ago with John Diefenbaker's Sea-to-Sea-to-Sea vision. It will benefit Northerners and all Canadians.

Communities will be connected

- Food, supplies and services available year-round at a fairer price, just like elsewhere in Canada.

Improved health and education services

Long-term jobs in maintenance and construction will be created in the North, for Northerners

Ice Road Truckers will become Nice Road Truckers with safer conditions and year-round work

Canada's sovereignty will be enhanced with an increased northern coastal presence for civilians and the military

Let's keep working together to improve the way of life for Canadians in the Mackenzie River Valley
